"Agnes Worsley" } two films that are to be shown
"Generation of the Cuck" } in A. B. F. G.

During A period there was not enough time to show both film, primarily because there was a certain amount of learning how to use the projector on my part; the students, of course, were very helpful. No smell of formaldehyde in Room 136 is almost unbearable & yet I shall spend most of my day herein.

Both films are interesting; "Hoover" film very good documentary
the "land" film is very stirring -- Colonial precedents,
pioneer, modern farmers & always the love affair with
the land. The film is a celebration of the American farmer &
there is a strong emphasis on modern farming.

I have now settled into a Lakeland routine and the school
now holds less mystery for me than formerly. I must say
that I am delighted to have learned how to use a film
projector: another item for my résumé, so to speak.

Curiously - and was walking down the hall here just a few minutes ago, I heard one of the students say: "Here goes Abe [Lincoln]." apparently I do have much in common with Abraham Lincoln's appearance & perhaps I should capitalize on it to the maximum. Ran into one of the Brookvalley 4-H Group -- a Jennifer Slackish, I believe she said. Certainly I will hear about the Change meeting from Brookvalley.

Perhaps I shoued go by Mrs. Doud's room and introduce myself? Well, maybe later on in the day. at 11AM I had the study hall next to Mrs. Doud's room and I went in & introduced myself. Very friendly; quite young also.

I am becoming known
at Lakeland. Three or
of the "core" tenth
are very friendly
in very amusin
as: Joe Kadala
Mike Putnam,
Tom Pawlowski
Kerry Luzzo.

Ran into Ed Moreland
today again; he is that
fellow who worked on the
3rd floor of City Hall for
a while. A nice guy.
He's back in office in
City Hall; & took him
I vowed I'd pick it up &
put it in my car &
give it to him the
next time I came
to Lakeland.
